Programmes/ Schools I did not get into (along with the reasons, if I am correct):

2024: 10 PhD programmes around Europe, including 2 interviews from Bielefeld and Utrecht
Reason: Not meeting the technical requirement since most of the programmes are about NLP/LLM, the same with the 2 interviews (although I was being shortlisted amongst a large pool of candidates)

2023: Vietnam Summer School of Science

Reason: Not sure why?

2022: PhD at Max Planck School of Cognition

Reason: Lacked research skills, experience and a clear research interest

2022: PhD at Friedrich-Alexander-Universität Erlangen-Nürnberg

Reason: Lacked research skills and experience

2016: BSc at Military Technology Academy

Reason: Did not meet the admission requirements

Paper rejections from journals (along with the reasons):

2023: *Lingua*

Reason: Lack theoretical significance

2023: *Cognitive Linguistics*

Reason: Lack theoretical significance

2022: *Cognitive Linguistic Studies*

Reason: 'Paper being too long'
